## IFAT

### World's Leading Trade Fair for Water, Sewage, Waste and Raw Materials Management

#### 50 years of IFAT—a success story ...

The World's Leading Trade Fair for Environmental Technologies boasts a high international presence and an impressive number of exhibitors and visitors. A fixed date in the diaries for businesses in the water, sewage, waste and raw materials industry, IFAT provides you with everything you need to make your trade fair appearance a success.

IFAT is becoming an increasingly popular platform for presentations and innovation. International exhibitors in particular value the ideal market environment IFAT offers. Businesses from the water and waste water as well as from the recycling and municipal technologies sectors present their own pioneering and valuable solutions that enable the available resources to be used responsibly. Continuously rising visitor numbers and increasing international interest underline the enormous importance of IFAT as the World's Leading Trade Fair for Water, Sewage, Waste and Raw Materials Management.

#### ENVIRONMENTAL TECHNOLOGIES AT IFAT

- Water extraction and treatment
- Water and sewage treatment
- Water distribution and sewers
- Coastal protection/flood control
- Refuse disposal and recycling
- Generating energy from waste materials
- Street cleaning, maintenance and winter road services
- Decontamination of old sites/soil treatment
- Flue-gas scrubbing and air extraction/Air-pollution Abatement
- Noise reduction/Sound insulation
- Measuring, control and laboratory technology Services
- Science, research, technology transfer

Exhibitors and visitors can look forward to a diverse programme of events with company and product presentations, symposia, country specials in the water, sewage and waste-management sector. Attending these events is free of charge. All lectures will have simultaneous translation into German and English.
